## URGENT ACTION ITEM!!

We have the opportunity to voice our opinions to the FDA on why we do not think kids should receive Covid vaccinations, but we only have a few days. There is a short video of explanation and a link under it to go to the FDA comment page.

Please take 5 minutes to share your comment with the FDA. We only have until **October 25th** to make our voices heard. Do it now!!

## What Are You Doing Out There?

Robert F. Kennedy, Jr. explains in this video why we all need to stand up now and resist with civil disobedience.

Because the data shows that the vaccine has no positive impact on overall mortality but puts young age groups at risk, it has become clear that it is not about health. It is about control! A healthy child has almost zero risk from this disease, and yet the risk from the vaccine is alarming.

"There is a famous story where Henry David Thoreau was in jail for protesting, refusing to pay his taxes because his tax money was going to support the Spanish-American War, which he believed was an unjust war. And the famous philosopher who was his friend, Ralph Waldo Emerson, came to his jail cell outside of Concord, Massachusetts, and he talked through the barred window to Thoreau... And he said, "David, what are you doing in there?" And Henry David Thoreau said to him: "Ralph, What are you doing out there?" And that is the question that we now need to ask to everybody, "What are you doing out there?" We all need to come on the street, we all need to resist."

Study links are included in the article.
